COMMERCIAL CLUB
AIDS IN SECURING
MORE FARM LABOR

To Gather Data on Industrial Population with Possibilities for Helping Farmer.

Further requests for all possible men who could be made available for farm labor were received by the Commercial club and considered at the regular meeting of the board of directors yesterday afternoon. Information is sought by the College of Agriculture at the University of Wisconsin regarding the factors which cause or decrease farm labor during the summer months, in order that a complete census of available farm labor may be gathered. The investigation was turned over to Mr. Craig, who will make a study of Janesville's industrial population to report to the university.

That a shortage of labor is to be the greatest problem in increasing the agricultural productivity of the state is daily becoming more evident to all organizations which are fostering the movement, and every possible effort is being made not only locally but throughout the entire state to supply the labor demands of the farmer.

A hearing is scheduled for the near future in this city on the subject of hours of work for women, as a result of a proposition to all labor to a proposition between the hours of six in the evening and seven in the morning. The industrial commission designated the hearing in response to a request made by the Commercial club.

The directors also considered the matter of a selection of a highway between Janesville and Beloit as an integral part of the trunk line road decided upon by the legislature. Cooperation of the citizens of both cities in making this selection was urged as a preliminary to any actual work being done for more recruits, and the organization of another company in which Janesville young men could enlist to bring the city's quota up to normal.

Capital Janesville of Company of the local militia organization, declared before the directors that the city must furnish between three and four hundred more recruits than have now enlisted, and that if a new company was to be organized, action should be started at once that it might be filled before the conscription would be put into effect.

Captain Caldwell also urged the need of a company fund, such as is usually furnished the home units by citizens, in order that the comforts of life not provided by the regular army equipment. A committee of the Commercial club was appointed to meet with the captain and a group from the Defense Council to consider this matter. The membership committee reported the acquisition of eight new members to the club.

PLAN THREE WEEKS INSTITUTE SESSION

Summer Course Will be Conducted at County Training School Beginning July 9th.

A three weeks' teachers' institute will be conducted at the county training school this summer, beginning July 9, under the direction of Principal F. L. Lowth, assisted by Miss J. J. Cobson and Miss L. L. Brown. There will be classes in all first and second grade subjects desired by five or more students. Rural teachers in the county who have not attended a one year course of teaching experience or who have not recently attended an institute are expected to enroll. The institute course will prepare teachers for examinations for all grades of certificates.

PUBLIC LIBRARY HAS MANY WORKS ON "BETTER BABIES"

Conserve the natural resources; raise the best farm products; has been the cry. This week a nation-wide campaign is being made for "better babies" and many have heard Dr. Mendenhall, who for many years had charge of a child's hospital in New York City. These are some of the books that she recommends. The public library has the following:

- Care and Feeding of Children—Holt.
- Care of the Baby—Griffith.
- When to Send for the Doctor—Lippert.
- Feed and Our Children—Hutchinson.
- Short Talks for Young Mothers—Kerley.
- Hygiene for the Mother and Child—Mott.

FORMER MUTUAL PITCHER NOW LEADS LOVAL LEAGUE AT HOME OF LONG ISLAND

John M. Ward, world famous pitcher of forty years ago, and at one time the leading hurler of the great Janesville Athletics in his home town at Babylon, N. Y., is strong for preparedness and loyalty to President Wilson, and at a recent meeting of citizens of Babylon and vicinity he was chosen unanimously for president of the Long Island Loyal League.

President Ward was ordered to wire President Wilson of the league's support. Plans were made for the guarding of the south side of Long Island. Over a hundred residents of Babylon and the vicinity are members of the organization.

"Johnnie" Ward at one time worked in the Gazette office. After quitting baseball, he studied law, and now has an office at 277 Broadway, N. Y.

CHURCH LEAGUE MEMBERS ENJOY FINAL BANQUET

The annual banquet of the Basketball League was held last evening at the Hotel Myers. There were sixty members present, who comprised the teams of St. Patrick's, St. Mary's, the Norwegian Lutheran, St. Andrew's, the Lutheran, the Baptist, Methodist, Congregational and Presbyterian churches. H. S. Lovejoy, who is president of the league, made a few remarks, and the Rev. Grant of the Congregational church at Milton gave a talk. Robert Stevens sang a solo, accompanied on the piano by Miss Dorothy Brigham, and William M. Davidson, who was a vocal number, accompanied by Miss Mabel Dunwiddie. Roger Cunningham was the toastmaster. This is the fourth year of the league games, and the cup was won by the St. Andrew's Methodist church. It was presented by the president of the league, and accepted by Robert Lane of the Methodist school.

TO GIVE BIG DANCE
TO GET MONEY FOR
MILITIA COMPANY

Plan Great Community Party to Secure Money For Company Fund For Local Militia Unit.

To aid in the raising of money for a company fund, a great community dance is being planned by the Commercial club and the local militia organization, to be held in assembly hall on May ninth. At a meeting yesterday afternoon representatives of the Commercial club and of the County Defense Council discussed plans for raising a fund, and gave their sanction and pledge of support to the dance.

Captain Caldwell pointed out to the committee that it has been the custom for the militia to be equipped with a fund for its company in actual service to supplement the mess and to provide many little comforts, and the government equipment. Between three and four hundred dollars are necessary for this fund, and the proposed dance will be held to start subscriptions.

Each of the men in the company will be given ten tickets to be sold about the city, and five tickets will be distributed to each man in the Edgerton detachment. It is desired that every man will be able to participate in the affair. The dance already has the endorsement of the Commercial club, the Defense Council, and other local public organizations. The hall today agreed to contribute the hall to the music, and attempts will be made to secure the refreshments from some of the women's clubs, in order that all money taken in at the dance can be used for the company fund.

It is expected that about two hundred dollars will be raised in this way, an amount which Captain Caldwell declared is adequate for the well declared need of the men, when called out. Afterwards the Commercial club has agreed to raise by popular subscription sufficient money to complete the company fund. Edgerton is also planning a campaign to aid the fund for the benefit of the fifty-three Edgerton men who have enlisted in the local company.

Every effort is being made to make the affair a grand social event, and many have already agreed to buy tickets, the financial success seems assured. Arrangements for the dance are being perfected by Captain Caldwell, and the hearty solicited, the entire affair is being conducted in the comfort of life while in actual service.

Dance Tonight.

This evening following the public drill, which will be held at 8 o'clock, in the neighborhood of the Gazette office at eight o'clock, there will be a dance at the armory, to which the public is invited. On last night a similar affair was given by the armory and its popularity brought a demand for a similar dance this evening.

OBITUARY.

Edwin James Cleland, Beloit, April 30—Thursday morning, April 26, at 9:15 o'clock, Edwin James Cleland, son of Mr. and Mrs. George W. Cleland, 317 Central avenue, Beloit, passed quietly away, after an illness of two months with nervous prostration. The young man was a graduate of the State Normal school at Janesville, where he was born in the town of Turtle, March 26, 1894. A few years after he moved with his parents to Beloit, where he had since resided. He, with his father, for the past five years had worked their farm lying near the city.

Edwin was a young man of unusually good habits, quiet and unassuming, faithful and devoted to his parents, and a member of the First Presbyterian church of Beloit. He was a member of the family. He was a consistent Christian. A member of the Beloit Presbyterian church of Beloit, as faithful to his duties there as in his home.

The Misses Sarah and Belle Cleland of Janesville and John Cleland of the town of Janesville are aunts and uncle of the deceased.

Funeral services were held Saturday afternoon at the late home of the deceased, Rev. H. L. Moore, of the First Presbyterian church of Beloit officiating. The remains were laid to rest in the city cemetery, the father, George W. Cleland, and three uncles, David Cleland of Beloit and John Cleland of Janesville, acting as bearers.

Those from Janesville who attended the services were Mr. and Mrs. John Cleland and son Ray, the Misses Sarah and Belle Cleland, William Blair, Mrs. Emma Fisher, Mr. and Mrs. George Cummings, Mrs. A. J. Moore, Mrs. Peter Mooney and sons Will and Michael and daughter Katherine, Mr. and Mrs. Frank Korn, daughter Lulu and son Roscoe.

Mrs. Amanda H. Brace, Mrs. Amanda H. Brace, wife of Oscar Crandall, died at her residence in Walworth yesterday afternoon at the age of about four years' duration. Mrs. Crandall was the fourth daughter of the late Captain Harvey Brace, who with his family were early settlers in this community and members of the Congregational church. Mrs. Crandall was a native of this city, and was for a number of years connected with the city schools. She was a devoted and genial friendly nature, and retained much of her youthful vivacity until the ravages of disease cast a blight upon her. Besides her husband, she leaves a son, Marshall P. Brace, of Dunlap, Iowa, and three sisters, Mrs. Joseph Emerson of Beloit, and Mrs. H. P. D. Bigelow and Mrs. H. M. Lemon of Chicago.

Funeral services will be held on Wednesday at one o'clock at the home and afterwards at the Stone church. Interment will be at Walworth.

Ellis promised to do so and his case was adjourned for a week. Monroe previously having lodged complaint when Ellis refused to pay for the glasses.

AMERICA MUST FIND
A SPIRITUAL BASIS
IN THE WORLD WAR

New Valuation of Patriotism is Necessary, Declared Rev. Powell of Beloit in Address to Ministers.

More important than food and ammunition, or than men and equipment, is the spiritual element which shall inspire America as she enters the world conflict according to the Reverend W. A. Powell, of the First Congregational church, Beloit, in an address Monday afternoon at Library hall, at the spring meeting of the County Ministerial association. His subject was, "The Part of the United States in the World Struggle."

"The efforts of our nation have so far been the results of the war, it had not been dominated by passion and had only gone into the conflict when it was found to be absolutely necessary to preserve our national honor. But in some things the nation is not waking up to its opportunities. There is a need for a new valuation of patriotism, and we must look for spiritual basis in this great struggle. The whole world must be America for the rational and spiritual things that are valued most, as the concrete results of the war."

A second point which he emphasized was that the United States must furnish the spiritual insight, necessary to conduct this great conflict, that not only must we supply tools and munitions and food, but we must furnish means to fight evil everywhere, both at home and in the camps. He wished all to bear in mind God's place in Universal Love, and so to keep free from hate and passion.

The speaker said that at this time he had a new appreciation of God's redemption through suffering and sacrifice. Many crisp, clear, word sentences illustrated his meaning, such as "Cosmic evolution is not a back in soul power has no worth," and "A clean church and a bath tub will not save men, if it has not the moral responsibility back of it."

Interesting figures showing the enormous increase of wealth in the United States in the last ten years were given, and a comparison made of them with the wealth of the countries of the old world. The speaker closed his address with the thought, that we must mobilize the souls of our people, and that the duty is not only to increase the food supply of the nation, but "the acreage of souls."

After the lecture, an informal discussion of its subject matter was indulged in and a social hour spent by those present.

Opening sessions of the ministers' conference were held Monday morning at the Y. M. C. A. building, with twenty-five clergymen of the county in attendance. The Rev. G. F. Lockheart of the Baptist church at Beloit is president of this association, and Rev. W. F. Ireland of Clinton is secretary.

The general subject for discussion was "The Minister and His Work." A review of a new book by Jackson, "The Pastor with the Shepherd," was given by Rev. R. G. Pierson, and "Experiences that have encouraged the Pastor," by Rev. John A. Stemen. The Rev. W. P. Pierce had for his topic, "The Preacher," as one speaking to God and to men.

Rev. F. F. Lewis is enlarged on phases of the subject, "The pastor's subject matter," and he served to the members of the association at the Park hotel.

Odd Fellows Attention: There will be a special meeting of Wisconsin Lodge No. 14, I. O. O. F. Wednesday evening, May 2nd. Second degree will be conferred. All members are urged to be present.

SEE VEILED THREATS TO MONROE MINISTER

Monroe, Wis., May 1.—Friends of the Rev. W. H. Penn, pastor of the First Methodist church, are inclined to believe that he has received a warning of the most sinister kind. Sunday morning when he stepped from the parsonage he found, for the second time in his pastorate, a stout hickory switch lying across the threshold. The warning is regarded by friends of the pastor to indicate that unless he is less outspoken in matters which he considers to be the detriment of the community, punishment will follow. Rev. Penn had announced a special Sunday evening address on "Mormonism Turned Inside Out," and as the former occasion on which he found a heavy switch lying across the door sill of the parsonage he had also announced a special address on Mormonism. His friends are inclined to the belief there might be some connection with the same.

Rev. Penn was at one time in his career a government scout in the mountains of West Virginia, helping to hunt down moonshiners, and was also connected with Mormon investigations. He is outspoken in what he believes to be right, and is fearless, and the fact that he found the switch on his doorstep, and there was evidence that it had been put there as a warning, did not deter him from giving the address as announced.

Two Mormon elders have been working here for the past ten days, but both are quiet young men of pleasing personalities, and it is not believed they are responsible for the warning, although so far the matter has not been explained.

CLINTON NEWS

Clinton, April 28.—Last week our townspeople were gratified to see a large portion of Graeber's advertising on the road, on the side of Union street, taken up with an immense "Stars and Stripes." Undersneath are these words: "Long Ma—It Wave." It is a very pretty piece of work considered artistically, but its chief attraction lies in the sentiment that it so plainly expresses. Clinton is not going to be behind any other town in the county in patriotic fervor and every effort will be put forth so that the old flag shall wave long and gloriously. Three of our citizens are responsible for this timely expression of national feeling, namely, F. W. Herron, Harry Van Horn and W. C. Graeber.

A. E. McKinney was taken seriously ill with appendicitis the early part of the week and is under the care of a trained nurse. It is hoped that with other treatment an operation may be avoided.

Will Tubbs stopped off between trains this morning to visit his brother and the latter's wife, Mr. and Mrs. E. H. Tubbs, on his way home to Elkhorn from Rochester, Minn., where he underwent an operation at his brother's hospital. His many friends here rejoice at his speedy recovery.

George Kinyon and Miss Edna Kinyon came from Milwaukee this evening for an over Sunday visit with their sister and husband, Dr. and Mrs. A. S. Woolston.

Mr. and Mrs. T. E. Ryan are moving back to their former home in Benton Harbor, Mich. Their household goods were sent today and Mr. and Mrs. Ryan will leave on the morning train tomorrow. Mr. and Mrs. Ryan have made many friends here who regret their departure. On Friday Mrs. Joe Pys gave a surprise at her home for Mrs. Ryan and the ladies presented with a little token of remembrance from some of her Clinton friends.

Mr. and Mrs. J. A. Christianson are the proud parents of a daughter, born last evening.

Mr. and Mrs. Frank Hammond attended the funeral of their nephew, Edwin Carpenter, at Beloit Friday afternoon.

Mrs. N. O. Tarbell and little son returned to their home at Lake Geneva this evening after a few days' visit with Mr. and Mrs. A. J. Boden. Mrs. Tarbell and Mrs. Boden being sisters. Mrs. F. C. Fletcher of Milwaukee was the guest of Mrs. Elmer Plass Tuesday.

William Mayhew, Sr., was a Janesville visitor Friday.

Miss Lenore Northrup is spending the week-end with friends at Prairie du Sac.

Mr. and Mrs. W. H. Cox spent Friday in Chicago, stopping off at Woodstock on their way back to visit Mrs. Cox's parents.

Mr. and Mrs. E. H. Tubbs went to Milwaukee Friday to see their nephew, Palmer Tubbs of Elkhorn, who underwent an operation at a hospital in Milwaukee several weeks ago and who is not gaining as fast as it was hoped he would.

Mrs. Patrick Garvin went to Milwaukee Friday, where she spent the day. Mr. and Mrs. C. Smith and children motored out from Milwaukee today to visit the latter's mother, Mrs. Foltz, over Sunday.

The A. B. Club held a picnic banquet at the home of Mrs. Will Hughes last Thursday evening, and at which six of the members who held the lowest scores in the auction bridge games during the winter presented the six members who held higher scores with prizes, which proved to be a market basket of groceries for each, which caused much merriment. After the banquet a game of cards was played. The same evening the husbands of the members of the above club enjoyed a beefsteak dinner at the home of F. W. McKinney, at which Ed. E. Kizer was head chef.

Mr. and Mrs. C. J. Smith went to Janesville Friday to attend "Intolerance" at Myers theater.

Rufus G. Greene has gone to South Dakota to spend a few days.

Mrs. J. H. Sayers, who has been visiting her sister, Mrs. R. C. Greene, returned to her home in Chicago Thursday.

SPRING VALLEY

Spring Valley, April 30.—Henry S. Merrill of Chicago, spent a few days here recently.

Mrs. John Boyd has returned to Milton after a week-end visit at the home of her mother.

Mrs. Leona Gibson and daughter, of Albany, spent a few days the first of the week at the home of her parents, Mr. and Mrs. Hageman.

Dr. J. W. Keithley was up from Beloit last week.

Miss Talma Strand spent Saturday in Beloit.

Miss Nellie Gibson has been the guest of friends for a few days.

Albert Palmer has purchased a new auto truck.

Mrs. Walter Ramey was a Beloit visitor last week.

Mr. and Mrs. James Scobie, Mrs. Malcolm Harper and daughters, Mrs. Wallace Cochran and son, Claude, and Edward Ahneson of Janesville, Mrs. Andrew Harper and son of Monroe, and Mr. and Mrs. Warren Cain of Evansville, attended the funeral Friday of the late William A. Harper.

The P. F. club has been postponed for a week. The next meeting will be at the home of Mrs. Walter Gimpfer.

Many special bargains each day in the war columns. Read them.

Your last chance to buy the Encyclopaedia Britannica, printed on genuine India paper, ends in 2 or at the very latest 3 weeks from today.

We are close to the day when we must stop taking orders. The few remaining sets of the Britannica are selling so fast that if you want to be sure of getting a set, **NOW** is the time to order it.

And it is **NOW** or **NEVER** if you desire to own this great work in its most convenient form—the popular "Handy Volume" Issue, printed on genuine India paper.

These remaining sets are the *very last in the whole world*, printed on the famous India paper, that can be offered.

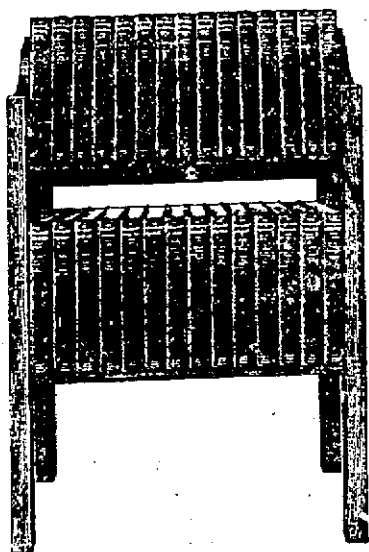

They are printed on the last India paper manufactured before the war made it impossible to get the special kind of flax from Belgium, Ireland and Germany and hemp from Russia for the making of India paper. No more of these raw materials is available, or will be procurable for years after the war, for the making of India paper.

And the only sets of the Britannica for sale anywhere in the world, printed on this beautiful paper, are right here in America.

Orders have greatly increased in the last month—the sales have jumped to an average of more than 2,000 sets a week. This fact makes it certain that the few remaining sets will not last beyond 2 or 3 weeks.

If you know the Britannica, know how useful it will be to you, and are quite sure you should own a set, order it immediately. This is your only assurance of getting it.

When the last day is announced on which we can accept orders with any prospect of filling them, it is reasonable to expect a great rush of orders to come in at the eleventh hour. This was shown last June when a slight increase in the price was made on account of the increase in the cost of bookmaking materials, and we received over 17,000 orders after the last day.

NOW or NEVER!

We are giving you warning **NOW** to save you any disappointment in never getting one of these *very last sets*.

In this case when the last set is gone you will not be able to buy a first-hand set of this great library of knowledge, printed on genuine India paper, at any price.

Today in England, Australia and other countries people who failed to buy the Britannica when they had the same chance that you have now are advertising for it and have to pay whatever premium may be put

and examine the Britannica for yourself. You can there see a complete set, investigate its contents in your own way, run through the index of 500,000 facts and learn all about this great work. You can compare the large-size, higher-price Cambridge issue and the popular "Handy Volume" Issue, which sells for about 60% less. You can also select the style of binding you prefer.

Go at once and see the different issues. You can leave your order at the same time. But this is **YOUR LAST OPPORTUNITY**—remember, when the last one of these remaining sets is sold you will **NEVER AGAIN** have an opportunity to buy this valuable work printed on genuine India paper.

on it by any owner who can be induced to sell his set.

Don't wait until the eleventh hour. Don't put off ordering until "tomorrow." Take the time today to send in the "reserve order" coupon and then you will be sure of getting a set.

You should satisfy yourself that the Britannica will be useful to you in your business or work, increasing your mental efficiency and earning power. You still have a chance to know what the Britannica is and what it will mean to you.

Go at once to
JAS. SUTHERLAND & SONS,

We don't want any one to order the Britannica unless he is positive that it will be useful to him. We could sell many thousands more sets if more India paper for printing them could be obtained.

Hence we desire that every single one of the remaining sets shall go to men and women who will find the Britannica a practical everyday help.

Facts about the Britannica Proving its Usefulness

This great work is a complete survey of all knowledge.

Its 29 volumes contain 41,000 separate articles, covering every branch of human thought and activity.

It contains 500,000 indexed facts.

It is cosmopolitan in its viewpoint, unbiased in its presentation and authoritative in every particular.

It is the work of 1500 world-famous scholars and experts, each chosen because of his special knowledge of the subject he wrote about.

It could not be written today because the war would make it impossible to obtain from the contributors, who represented every civilized country, the same calm, unprejudiced view of national and historical subjects.

It deals with knowledge in the broadest, most practical way, making this knowledge usable for any purpose that knowledge is necessary.

It is written in an attractive, entertaining style which appeals alike to the business man, the woman of the home and the college professor.

It is a work that interests children, helping them in their studies and providing the foundation of a practical education.

It is owned and used by more than 175,000 men and women in all vocations, this number including more than 100,000 business men and women.

Only a few sets are left and when these are sold no more can be offered printed on genuine India paper. Therefore, it is

NOW OR NEVER
if you desire a set.

Those who cannot go to the store may use this reserve order form, which will be legally binding upon us to reserve one set for you, just the same as if you ordered it in person.

SOUTH OF THE LINE.

South of the Equator there is as much activity against the ruthless submarine warfare as there is north. Already diplomatic relations have been severed between several of the republics of Latin America and Germany and others will doubtless follow. Just what moral effect this will have upon the great war across the seas is unknown, but still it should have some. It means at least a loss of trade conditions when the struggle ends, and Germany has been a nation of progress in its commercial dealings. It has sent the products of its work, shops to the four parts of the globe and until this great struggle came the world did not know how cunningly they had captured all the trade in certain lines and had the secret of various drugs and concoctions that were important in almost all lines of business. Of course we have to pay war prices, not because we are at war, but because the world is at war and we are forced to manufacture for ourselves articles that have become indispensable and have not the knowledge to do it. In one way this is a good thing, for it will develop new lines of industry and new markets for our finished products in countries that Germany has been serving for the past fifty years with an ever-increasing volume of business. However, "South of the Line" we are forming new friendships that will be useful in years to come.

UNPREPAREDNESS.

After three years of preaching to prepare for the future, after the lesson of unpreparedness had been driven home by the conditions that existed in England when the present war broke out, the United States declares war with absolutely no provision made to arm, clothe, feed or equip this vast army of a half million or more men they expect to call into active service. Let alone that, but they are not ready to arm and equip the latest recruits obtained for various national guard units, let alone the regular army. It is one of the most wonderful examples of stupidity and blunders that could be imagined. True, as soon as congress gets through with its quibbling and makes the appropriations needed it will only be a short time before the needed equipment is completed, but in the meantime, what then? There is so much red tape about making regulations for a trench brush that the man for whom the brush was designed may be mustered out of service or dead of old age, long before it is issued. Of course there must be a check upon all government material but why useless delays?

PLANT YOUR GARDEN.

This delayed spring has given plenty of would-be gardeners an opportunity to secure their plot of ground and seeds and be ready to plant the crops they have decided upon. If you want to plant a garden and can not find space to do it on, inquire of Mayor Fathers at the city hall. Prof. West at the high school, before nine in the morning, or at the office of the Commercial club, of Secretary Kuhn, if you want to have a garden and can not afford the seeds, apply to Mr. Kuhn and he will make arrangements for you to obtain them and pay for them out of the profits you will make when the harvest time comes. To increase the visible food supply, reduce the cost of living, insure health and give the average man an interest in creating something for himself, there is nothing like a garden, be it ever so small. This nation is now passing through a chaotic stage, rousing itself from inertia to activity, and it is no wonder that hysteria exists as to the final outcome of the harvest of this year and a possible food shortage.

DRAFT OR OTHERWISE.

It would appear as though the young men of military age in this country, who have not already enlisted in some branch of the service, whether state or national, would have to take Hobson's choice in the immediate future when this selective draft law becomes operative. It is not going to be any respecter of rank or wealth. The poor boy is just as well come as the son of the millionaire, and but few classes are to be exempt. (Commissions are going to be handed out on the merits, and not by political pull or influence. When Uncle Sam decides to name the officers for the new army, he is creating, as is going to pick the men to command that are best qualified. When young men like Marshall Field can enlist in the ranks and a great grandson of U. S. Grant, the greatest military genius of modern American history, can sign as a private, or the son of the secretary of the navy become a marine recruit, the days of political pull, class fortune, are over. Merit will count and the men best prepared will be given the commissions to command.

USEFUL LEGISLATION.

Despite the rush to hasten legislation and adjourn, the Wisconsin legislature is evincing a desire to enact good, solid legislation in place of some of the haphazard laws that have marked the experimental stage of the development of the "Wisconsin Idea." There is yet much to be done and one should be the legalizing of the state convention idea where platforms are decided upon. Merit will count and the men best prepared will be given the commissions to command.

The liquor element are combating the arguments of a dry nation during the war by stating the industry pays millions in taxes and represents billions in capitalization which would be

useless if wiped out by a stroke of a pen. They argue that the sale of ice cream and gum and permitting moving pictures and theatrical performances cost the public more money than that would be used for buying food if not spent foolishly.

This opening of the fishing season a month ahead of time has found many an angler in a state of absolute unpreparedness. Tangled lines and broken rods will not catch the fish they anticipate, and with the high cost of living to be reduced by a fish diet there are bound to be a lot of amateurs on the job this year for fishing is a heap sight easier than digging a garden.

What will the May Day riots in Germany and Austria amount to, is the question that is troubling the diplomats of the allies. Internal dissensions might result in the speedy collapse of the famous Hindenburg line, and the driving back of the invading host beyond the Rhine, with a possibility of a speedy peace.

Roosevelt left an impression on the middle west that will be hard to erase for years to come. He rose to the situation in a manner of the old time "Tiddy and sweep all before him. Too bad he could not take Bill Thompson back east with him and lose him somewhere "East of Suez."

This promises to be a banner year for the tobacco grower and the average farmer, aside from planting his food producing crops, is planning for extra care for his tobacco strip. Prices should be abnormally high with any kind of growing weather.

The married men who smiled when they were excluded from the ranks of the national guards or regular army or navy have lost that grin as they look over the selective draft and find that they are as subject to being drafted as the single man.

This nation is not a people of wasters, as one would be led to believe, but we have lived too high and now are paying the penalty by attempting eleventh hour economy that is easy to preach and hard to practice.

The United States has not entered this war for a lust of conquest, but to protect its own interests. It is much the same as unfortunate Belgium. Forced to fight for national honor and integrity.

It was nineteen years ago today that Dewey sailed into Manila harbor without enough coal to steam back to a neutral port, and knocked the extra "L" out of Manila as it was spelled in those days.

This time the armed oil tanker failed to sink the submarine that did the job. Now some of the critics assert the Mongolia did not sink its assailant.

Chop Suey, oh where can there be The pen that all honor may bring you? No present day rhymers nor yet an old-timer Could carol thy toothsome delights: So who in the world then are we To try for to praise or to sing To try, in a measure, to say how we treasure And relish your morsels and bites? Ah, could we but fashion a rhyme, A sonnet or song so appealing, The whole world would cherish and never let perish Oh my! how would warble of you! We'd have it so very sublime, So filled with so lovely a feeling, That sooner or later all men would cry "Woe!" dish of Chop Suey or two!" Our hunger we cannot appease, O'er many a dish have we sported, And practically never, or seldom if over, Have had what we'd say was enough! Oh, pity the native Chinese, For often we've heard it reported, The folks over there they avow and declare they Have never once eaten the stuff.

The Great Sand Lake Soupbone.

It now looks as if the lean years had come to Sand Lake for in an unguarded moment, Mrs. Casterline's bound pup snuck through the back door of Art Blackburn's pool and lunch room and stole the soupbone that has done such noble duty for these many years. Its loss recalls memories of a service well performed. Since the memory of man runneth not it has furnished sustenance to those whom hunger hath assailed. Whether the golden sun was on its way towards the zenith at morningtide or had long since sunk to slumber, terminal the western orange, that old bone was at its post, a cloud by day a pillar of fire by night, a friend indeed. Let he that would dine appear, and Art would wave the trusty bone over the kettle and murmur, "Esto perpetua a pluri-bus unum," which means "let there be soup" and there was soup. But now all is changed—the sound of grinding is low and the mourners go about the streets; the pup rests in an unmarked grave, memorial services have been held at the opera house and the village of Casterline has been mourning for a period of thirty days.—Pewamo (Mich.) She might thank him and assure him it was pleasant to be kissed. So upon the ear he kissed her quite a large resounding smack. And upon the ear she smacked him when she smartly smacked him back!

CHRISTIAN SCIENCE
LECTURER DELIVERS
A STRONG ADDRESS

Dr. Walter Hubbard of Boston, Mass., Discusses Religious Ideals at Local Church Last Evening.

Dr. Walter Hubbard, C. S. B., of Boston, Mass., member of the board of trustees of the Mother Church, First Church of Christ, Scientist, in a lecture in Janesville last evening said in part:

Christian Science was discovered and founded by Mary Baker Eddy, a woman of unusual spirituality and of a deep religious sense. She was a consistent and tireless spiritual student, and through years marked by sickness and trials her deep religious sense led her to strive to see and to understand the divine principle in every being which she received. This persistent search for truth was rewarded by the discovery of the divine laws of God, which she named Christian Science.

"The study of the Scriptures revealed the fact that the entire Bible record teaches conclusively that our right understanding of God has always been through the knowledge of the knowledge of truth has been correctly applied it has always been reached by healing and regeneration. The Scriptures abound in evidence that to understand God brings healing. Especially is the New Testament replete with the statements of the apostles that come through the right apprehension of Him whom to know is Life eternal."

"Christian Science is giving us this natural understanding of the nature of God which is essential if we are to be in greater and greater measure the infinite blessings which infinite Love has in store for us. In understanding God we are all agreed in admitting that God is omnipotent, omnipresent, and omniscient; that is, all-powerful, everywhere, and all-knowing. We are all agreed in acknowledging His infinite perfection and His infinite power; yet after making these statements of the divine nature of God, we are all agreed in admitting that the world is full of sin, sickness and other forms of imperfection. We are either sent of God or we are sent by Him, and though divine and perfect, we are sent to do something which is without becoming responsible for it."

No matter by what term we may think of God, whether it be as infinite Mind, or infinite Principle, or infinite Spirit, a logical deduction as to the nature of man and the creation will always bring us to the conclusion that all that God has made, and the unreality of sickness and all that is contrary to His divine nature.

"The only way we can fail to arrive at the conclusion is by simply saying that God is making no effort to understand His nature and to understand the sickness and sin which we see about us are in some way according to His infinite perfection and holiness."

"We all of us accept the statement that God is a God of love, but it is better to say that God is Mind, because dissonance is never anything but the expression of mind. If we admit infinite wisdom, we must admit that it is the emanation of infinite mind. A mind to be an idea must be filled with ideas, and an idea by virtue of being an idea must be expressed. It is the expression of an idea filled with ideas, or an idea expressed, for a mind with no expression is not a mind but a blank."

"Now we have evidence of the evidence of infinite wisdom predicated an infinite mind. The infinite mind is filled with an infinite number of ideas or thoughts which constitute its wisdom. These ideas, because they are divine, cannot be separated from the mind which contains them, and it is the activity, the reflection, the manifestation of these ideas which constitute man and the universe. As God's ideas are in Him—perfect, spiritual and immortal—because we exist in Him the Scriptures declare that 'in him we live, and move, and have our being.'"

"There is a further quality of an idea that it might be well to consider. An idea has no ability to do anything or to be anything other than just the idea of the mind in which it exists. It cannot change itself or become more or less or different than that mind intended it to be, for it has no volition of its own, and must of necessity express exactly the qualities of the mind whose idea it is. Man is the perfect idea of God, and as the idea of God cannot be sick or choose to do evil, for he could change from being God's perfect idea he would be greater than God, because he would have spoiled the infinite design, thus have spoiled the infinite purpose. Now infinite mind is infinite Spirit and infinite Life. In expressing the perfection of infinite mind, man expresses infinite life and infinite Spirit, and must be eternal, while as an expression of infinite Spirit, man must be spiritual and not material. Man, then, spiritual and immortal, and like as God's idea, man has all the qualities of God, and has a single quality which is not of God, therefore he is beautiful and holy, spiritual, immortal, perfect."

"Such a conclusion as this leaves no room for a mortal, material, sick, and sinful man, yet we have the evidence of materiality with its sicknesses and pains to deal with as a false belief to be eradicated."

"As we see that both sin and sickness are simply manifestations of imperfect thought, thoughts of imperfection, then we also see that by putting the thought of the perfection of God and that God has made in place of this wrong thought, we shall rule out the wrong thought, and with no wrong thought there can be no wrong manifestation. The Bible makes this identical statement when it says 'The old man, which is corrupt according to the deceitful lusts; and be renewed in the spirit of your mind; and put on the new man, which is created in righteousness and true holiness.'"

"It is putting off the old man and putting on the new, though the application of the teachings of Christian Science, that constitutes the healing. The thoughts of sickness and sin are ruled out of human consciousness by the understanding and declaration of that which God has made."

"The Christian Scientist prays without ceasing. He is not given to praying audibly, because he is not praying to man, but to God, who hears in the secret but rewards him openly."

News Notes from Movieland
—BY DAISY DEAN—

Dorothy Dalton, earned the title of "feminine heroine" because of her characterization of the woman lawyer in "The Weaker Sex" and the young business woman in "Back of the Man." She represents the woman of today—the woman who demonstrates that the possession of brains does not lessen feminine charms.

In this same actress has also created some of the least admirable types of femininity. In "The Case" she is a girl of the Bowery; in "The Gamble in Souls" she takes the part of a flashy cabaret singer and in "The Dark Road" she is a soulless creature who believes in herself a reincarnation of Cleopatra.

Dorothy Dalton was born in Chicago in 1893. After her education in high school and the convent to the Sacred Heart school, she decided to become an actress. Her father opposed the ambition, believing that his daughter would make an admirable lawyer just as she did on the screen in "The Weaker Sex." Thereupon she proved her argumentative powers by persuading him not only to sanction a stage career but to send her to the American Conservatory of Dramatic Arts. It was not long before she had won recognition on the stage.

Miss Dalton declares that she prefers the studio to the stage, however, it gives her opportunity to enjoy domestic life. Her greatest pleasure is found in her pretty bungalow and its surrounding gardens near Los Angeles.

In appearance Miss Dalton is a personification of health. She is of the brunette type and possesses a supple, athletic figure. Her hobbies include horseback riding, motorcycling, polo, swimming and dancing.

WAR CURTAILS BROADWAY
GAIETIES: LID ON AT ONE

[SPECIAL TO THE GAZETTE.]

New York, May 1.—There will be no dancing at the bars of sixty-five hereafter. All night restaurants and saloons of New York's erstwhile Gay 90s are to close at 1 o'clock tonight.

The sobering shadow of war will cut off the lights, while the night is young. By order of Mayor Mitchell all night licenses have been rescinded, effective today.

Surplus articles about the house may easily be turned into cash by selling the people through the want columns.

(Notices furnished by the theatres.)

MYERS THEATRE.

The much-talked-of morality comedy drama, "Experience," by George V. Hobart, will have its first presentation in this city at the Myers theatre on Thursday, May 10. The engagement will be for one night only. William Elliott, F. Ray Comstock and Morris Gest, the producers of "Experience," will send here the famous New York-Boston "Experience" organization with its cast of eighty-two notable players. This is the same company that has had such a remarkable success in New York, Boston, Chicago, Philadelphia, San Francisco and Los Angeles.

In "Experience" the central character is Youth—the average young man of today—and the play shows Youth leaving his sweetheart, Love, and accompanying Ambition into the highways of Life. Reaching the city, Youth meets a fascinating lady called Pleasure and under the spell of her beauty he turns from Ambition and goes with Pleasure on the Primrose Path, where he spends his time in the Golden Cabaret. "Experience" becomes Youth's guide and it is with him while he goes the pace with intoxication, passion, frivolity, excitement and other festive ladies and sees him throw his money away with wealth and take lessons from Style. Having lost most of his money, Youth goes to a gambling house called the Corridors of Chance and tries to win his fortune at the roulette wheel, but only succeeds in losing every cent he has left. Quite accidentally he meets Work, but fails to find that hardy-headed gentleman attractive. But to escape Poverty, Youth takes a position in an under-world cabaret called the House of Last Resort and works there until he is sickened out by Makeshift, the proprietor.

On the Street of Remorse, Youth meets a man called Delusion, who invites him to a House of Lost Souls and in this den of cocaine fiends, Youth is induced to take some of the terrible drug, and under a craving for more cocaine goes out with Crime to kill a man and thus secure it. As Youth and Crime are on their way to slay, they pass a church. A choir of sinners sing a hymn in the hymn the song of his mother's spirit and repulses Crime and returns to Love, his sweetheart, and his sister Hope, determined to make another effort and this time to achieve success.

"FLORA BELLA" AT THE MYERS.

"Flora Bella," which comes to the Myers theatre, Sunday, May 6, is one of those musical offerings that delight the ear with tuneful, lulling melodies, that delight the eye with faro women and brave men that sing and dance their way along with fine spirit and grace against richly colorful settings of the Burban school, and that pays that high compliment to the intelligence of audiences by furnishing an interesting plot—such is "Flora Bella." The piece stands out from the dozens of musical comedies that come and go because it is satisfying to look at it. The play moves with a

dash and go that holds right up to the final curtain. "Flora Bella" tells the story of a young and neglected wife who makes her husband fall desperately in love with her by returning to her former cabaret life and posing as her own twin sister. It is a part in which a Monna donna reveals, now as the artful coquette of the dance hall; now as the demure, stay-at-home wife of the ennobled prince, and it is difficult to say in which capacity she is more charming. The book is by Felix Doermann, revised and adapted by Cosm Hamilton and Dorothy Donnelly. The lyrics are by Percy Wainman and the score by Charles Cullen, composer of "The Lilac Domino," and Milton Schwartzwald. There are seventeen musical numbers, which include the dreamy waltz, the stirring march and concerted numbers of real merit. Mr. Cort has selected an excellent cast quite in keeping with the one which appeared in the play during its five months of enormous business at the Casino theatre, New York.

The company includes among its principals: Eleanor Henry, Lily Leonard, Irving Brooks, Guy J. Sampson, Mortimer H. Weldon, Adolph Liles, Stuart Ben Brink, Jack Bell, and numerous beautiful girls.

A ROMANCE OF
THE LEWIS AND CLARK
EXPEDITION

By Emerson Hough,
Author of "The Mississippi
Bubble," "Fifty-four
Forty or Eight,"
Etc.

(Copyright, 1916, by Emerson
Hough.)

"Don't," said the weathered Lewis at length. "We have now arrived at the end of our journey. In my belief there has never been a party more loyal to the purpose on which it has been engaged. Without your strength and courage we could not have reached the sea. It is my wish to thank you for Mr. Jefferson, the president of the United States, who sent us here. If at any time one of you has been disposed to doubt, or to resent conditions which necessarily were imposed, let all that be forgotten. We have done our work. Here we must pass the winter. In the spring we will make quick time homeward."

No time to follow the gallant explorers on their homeward journey. They had traversed then unknown territory now forming part of Missouri, Kansas, Nebraska, South Dakota, North Dakota, Montana, Idaho, Washington and Oregon to the Pacific ocean. They were the first white men to cross the continent between the Spanish possessions to the south and the British possessions to the north. Altogether they traveled a distance of almost 8,500 miles. For more than a year they were cut off from all communication with the world. Indeed, it was believed that they had perished.

A horseman rode furiously over the new road from Fort Bellefontaine to St. Louis village. He carried news. The expedition of Lewis and Clark had returned!

Yes, those men so long thought lost, dead, were coming even now with their own story, with their proofs. The boats had passed Charrette, had passed Bellefontaine and presently would be pulling up the river to the water front of St. Louis itself.

"Run, boys!" cried Pierre Chouteau to his servants. "Call out the people! Tell them to ring the bells. Tell them to fire the guns at the fort yonder. Captain Lewis and Clark have come back again—those who were dead!"

At last they saw them coming, the paddles flitting in unison in the horny hands which, tirelessly drove the boats down the river. They could see them—men with long beards, and in tappings of elk hide, moccasins of buffalo and deer, their headresses those of the Indians, their long hair braided. And see, in the prow of the foremost craft, two men, side by side—Lewis and Clark, the two friends who had arisen as if from the grave!

"Present arms!" rang out a sharp command as the boats lined up along the wharf.

The brown and scarred riders came to place.

"Attn! Fire!"

The volley of salutation blazed out even with the chorus of the voyagers' cheers. And cheers repeated and un-

Throughout the christening ceremony the baby smiled up beautifully into the clergyman's face.

"Well, madam," said he to the young wife, "I must congratulate you on your little one's behavior. I have christened more than two thousand babies, but I never before christened one that behaved so well as yours."

The young mother smiled demurely and said: "His father and I, with a nail of water, have been practicing on him for the last ten days."

A photographer had taken a portrait of a young woman. After an examination she took a dozen of them. A few days later the photographer's studio with the dozen cabinet photos that had been made for her about a week before.

"What?" exclaimed the photographer in dismay. "Bring them all back? Why, I thought they were very successful. 'Bring them all back?' she said, with a smile. 'They are successful. I only want you to touch out the ring. I have a new young man.'

"A primary cause of divorce is the disappearance of home life—the extinction among us of all home sentiment." The speaker was Mary Pickford, the movie actress. She went on:

"A man said to me the other day: 'No, I'm rarely home. You'll find me, as a rule, at the country club. I'd rather play golf than eat.'

"Does she approve of such sentiments?" "Sure!" he answered. "She'd rather play bridge than cook."

VARSITY AMBULANCE DRIVER
IS DECORATED FOR BRAVERY

[SPECIAL TO THE GAZETTE.]
Madison, Wis., May 1.—Harry Craig of Cleveland, Ohio, who left the University of Wisconsin last summer to drive an ambulance in France, has been decorated with the "Croix de Guerre," the honor insignia of France, according to a letter received by some of his friends at the university. He was honored for showing extraordinary bravery in carrying wounded from the field of battle and in driving an ambulance under strong German fire in going for a load of wounded. Craig found it necessary to drive through a wooded section in which German shells were bursting. By good fortune he came through unscathed, although men were falling all around him.

SAFE FARMING

HOW TO GET A STAND OF ALFALFA

By P. G. HOLDEN.

MANURE a piece of ground in the fall and plow; or, if this cannot be done, manure the ground in the winter or early spring and disk thoroughly and then plow.

2. Disk or harrow or cultivate the ground every week or ten days during April, May and June to kill the weeds. Keep the ground clean. Don't let the weeds get a start. In addition this will give a firm seed bed, just what alfalfa must have.

3. Apply from three to five tons of ground lime rock per acre any time during the spring from most convenient.

4. Sow from ten to twelve pounds of seed per acre the last of June or during July or the first of August, without any nurse crop.

The important things are: Manure, Lime, Killing the Weeds, a Firm Seed Bed, Sowing Early so as to have strong plants to withstand the winter, and Determination.

By sowing early, say in July or the last of June, as soon as the weeds are killed, there is time to resow in case of heavy rain which may form a hard crust on the soil and prevent the first sowing from coming up.

5. Inoculation.—Inoculation never hurts and, east of the Missouri river usually helps and often is essential; especially until alfalfa has been grown on the farm for several years. The inoculation is a simple matter and easily done. During the spring or summer distribute from the rear end of a wagon or alfalfa soil, secured from a sweet clover patch or from a good alfalfa field.

Drainage.—Alfalfa will not do well in sour, wet, soggy ground. If not naturally drained it should be tile-drained.

How to Keep a Stand of Alfalfa.

1. Cultivate.—Cultivate and cultivate both ways. Don't be afraid of hurting the alfalfa. There is nothing equal to a spring tooth harrow for cultivating alfalfa. It destroys the weeds and especially blue grass which is alfalfa's greatest enemy, and forms a mulch, keeping the ground from getting hard. Cultivate in the fall; cultivate early in the spring; cultivate after each cutting except after the first cutting in the spring when you won't have time. Begin cultivating the second season after sowing.

2. When to Cut Alfalfa.—Cut when the little shoots or buds begin to start at the base of the plant. This is important and especially for the first cutting in the spring. When the buds or shoots start that means that all the strength is going to the new shoots for the next crop. If we delay cutting until these shoots have grown up so that we cut them off, we will cut two crops of alfalfa and get but one. Keep your eye on the little shoots—never mind the blossom.

NEW EDGERTON FIRM
WILL OPEN AT ONCE

(SPECIAL TO THE GAZETTE.)
Edgerton, May 1.—The Highway Trailer company of Edgerton Incorporated, will be filed with the secretary of state today and the first meeting of the stockholders will be held Wednesday evening at 7:30. The new corporation will engage in the manufacture of trailers for use behind automobiles and trucks. The concern proposes to manufacture all grades of trailers with special attention to the five ton variety for heavy hauling. James Menhall, formerly of Beloit, will manage the corporation and will be assisted by two experts from Beloit. The corporation will employ local labor in large part.

The corporation has already arranged the purchase of the new plant, which will be located on that property at once and commence operations without further delay.

Edgerton Recruits.
Captain Caldwell of Co. M, 1st Regiment, was in the city last night to train the recruits and enrolled fifteen more men who enlisted to serve with the Edgerton platoon. Fifty-three men have now enlisted at Edgerton and fifty-two of these reside in the city of Edgerton. Besides the new recruits, the platoon has enlisted at Janesville and three at Fort Atkinson, five at Madison, one at Providence, R. I. where he was attending school, and one in the navy making a total of 3,000 enlisted men from a city of 3,000.

Since the present trouble with Germany, a record that Edgerton will feel proud of and one that they do not believe can be duplicated elsewhere in the county. Besides this, four of our boys enlisted for border duty on the Mexican border and are serving, and two Edgerton boys are sergeants.

William McIntosh was last night appointed sergeant by Captain Caldwell and Mahlon Ogden was appointed corporal. The recruits were drilled by Captain Caldwell, Frank Murphy, Sergeant Pelton and Sergeant McIntosh.

Two Edgerton doctors, Dr. A. T. Shearer and Dr. J. E. Shearer, will be with the unit in France.

To Lead Band.
F. H. Daniels of the Daniels Stock company has been retained to lead the Edgerton Cornet Band for the coming season. Mr. Daniels has had the equipment of his stock company stored here for the season and will make his residence in this city until the reopening of the show season. He arrived yesterday. Mr. Daniels is an accomplished band leader and is a valuable addition to the Edgerton band. Rehearsals will begin at once.

Mr. and Mrs. Lou Puerner returned last evening from a visit with relatives in Jefferson.

Mr. and Mrs. J. E. Shearer, of automobiles in this city have joined the Wisconsin Transport Reserve. The purpose of the organization is to place the state militia on an equal basis with the federal authorities for immediate aid in moving state militia.

Despite the weather a goodly attendance was on hand yesterday at the baby week program at the Doty residence. The program was to have opened with an auto ride for the mothers and babies, but on account of the rain the ride was postponed. The program tomorrow will be in charge of the ladies of the W. C. T. OFFICERS' SCHOOL ATTRACTS BADGERS

Madison, Wis., May 1.—Each day an increase in the number of enlistments to go to Fort Sheridan on May 8 is noted. About two hundred students who were enrolled in the military course are planning to take the work at the Fort. This will mean that only one hundred will be left at the University of Wisconsin. Every effort is being made by the officers at the Wisconsin school to have all possible go to Fort Sheridan to prepare for a commission.

No enlistments for the course will be accepted after May 1. There will be two camps formed, one for men from Illinois and one for men from Michigan and Wisconsin. Each camp is expected to consist of 2,500 men. All expenses will be paid during the three months' course, which will consist of theoretical work as well as practical work on the field. The conclusion of the course examinations will be given and all those who pass must accept commissions in the United States army. On the other hand those who fail will be allowed to drop military work or do what they please.

HAIR CUTS AND SHAVES ARE LUXURIES AT DULUTH

Duluth, May 1.—To meet the demands of cost brought about by increased prices in all barber supplies, as well as the higher living cost, it was stated the Boss Barber Association of Duluth at a meeting last night decided to raise prices. The new scale is listed at fifty cents and shaves twenty-five cents. According to President George Brown of the association, the movement has the endorsement of all the representative barber shops of this city.

EDGERTON RECRUITS
NUMBER FIFTY-THREE

Captain Caldwell "How Has Full Peace Strength and Within Two Men of Total War Footing."

Edgerton recruits accepted and sworn in by Captain E. N. Caldwell of Company M, First regiment W. N. G., now number fifty-three. Aside from the thirty-eight who had previously passed their physical examination and taken the oath, fifteen more joined the company last Monday evening and ten more signified their intention of enlisting at the next muster night.

This means that Edgerton is fast pushing Janesville for first honors in total number of enlistments and that Company M, if ordered into the field would have its full peace strength of one hundred and one enlisted men and a war strength of one hundred and forty-eight, but two short of the hundred and fifty needed.

Recruits will be continued, the men enlisting will be called unassigned recruits, and it is probable that there will be a goodly number from Janesville who will enlist rather than wait for the draft.

The Edgerton men who enlisted last evening are Ernie Schlegel, Giles C. Lien, Clinton Price, Harvey Davis, Harry Mann, Lawrence Whitford, Herbert Nickols, Harold Dawe, Fred Quigley, George Ogden, Bernard Dierman, Willis Madden, George Severance and two others. The drill last night was held in the high school gymnasium, and fifty men were on the floor. They will be equipped with uniforms and munitions as quickly as the state can obtain them.

This morning Captain Caldwell received official orders to release from army duty all but one officer, sergeant, two corporals and six privates. Those who were retained as army guard were Captain E. N. Caldwell, First Sergeant H. B. Pelton, Sergeant Pearl Grinshaw, Corporal J. C. Flannery, Corporal Frank Murphy, Corporal Wiebert Ryan, Privates J. B. Herman, Hollenbeck, Henry Swanson and Mechanician J. A. original darders privates, except Pelton, and have been promoted to non-commissioned officers and privates of the first rank.

When taking over command Captain Caldwell has issued twenty-one discharges to former members of the company. Five were dishonorable and sixteen honorable. Of the last list sixteen went into the marines, two into the regular army and twelve were married men with dependent families.

There are three other married men who have applied for discharges, which will be granted later.

This evening if the weather becomes considerably warmer the company will drill in Wisconsin.

It is expected that Colonel Salsman and possibly other state army officers will be present at the inspection progress the company has made in the past two months.

GO NORTH YOUNG MAN, GO NORTH

Milwaukee, May 1.—In northern Wisconsin lies the means of greatly increasing food production, according to farm experts here.

Large tracts of acres of cut-over timber lands are available if men, money and means can be provided. That is why, they say, Wisconsin university and other institutions are planning a "reducing reserve."

Extension department officials have arranged a table of suggestions for cultivating and planting which are available of the state university experiment stations.

WOMEN STEADY WORKERS

It used to be said that women could not be depended upon like men to work steadily, and consequently ought not to expect so much pay as men employed at similar work.

While it would be foolish for any young woman to stay at work when physically unfit, it is believed that most women now continue at their work as constantly as men. Any woman who is unable to do so, should take Lydia E. Pinkham's Vegetable Compound, the old, reliable medicine for women, and get the aid she needs to enable her to keep at work.—Advertisement.

TODAY'S BEAUTY TALK

You can enjoy a delightful shampoo with very little effort and for a very trifling cost, if you get from your druggist a package of cantrox and dissolve a teaspoonful in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to the hair instead of just the top of the head. Your shampoo is now ready. Just pour your shampoo at a time on the scalp and rub until both are entirely covered by the daintily perfumed preparation that thoroughly dissolves and removes every bit of dandruff, excess oil and dirt. After rinsing the hair dries quickly, with a softness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure.—Advertisement.

PATRIOTIC SOCIAL
AT BAPTIST CHURCH

Members of Christian Endeavor Society Enjoy Delightful Gathering Monday Evening.

A very hilarious occasion was the patriotic social held by the Christian Endeavor society at the Baptist church on last evening. The troop of Boy Scouts were out in their uniforms and the girls of the society, not to be outdone, were clad as Red Cross nurses. The Baptist church orchestra led by Prof. Thiele, played the "Boys in Blue" and other patriotic airs and rendered a military march evolution, for the "Grand March" which was one of the features of the evening. This was led by Roy Eller and Miss Celia Schwartz and was the occasion of many fanciful evolutions.

A patriotic guessing game, under the leadership of Miss Schwartz had also been provided, when the full aspirants for honors were to guess the names of the presidents from their pictures and the states of the Union from their cut out representations. At the close of this contest it was stated that a count had been kept for some time of the highest scores in the guessing games given at the C. E. meetings and the winner of the greatest number of these contests was Mrs. Eberling who was thereupon presented with a Christian Endeavor pin. Special dispatches from the seat of war showed that the Rev. Eberling was really the winner of this prize in the guessing contests, but as he was only an honorary member he was not eligible for the gaudy of honor.

Miss Belle Campbell read the beautiful patriotic poem, "Your Flag and My Flag," and the exercises concluded with the serving of light refreshments, ice cream and cookies to those present.

ABE MARTIN

Life Bud says he never had but one newspaper job, and then he got fired for gittin' scooped on a fingerin' death. Who ever dreamed th' time would come when we'd feel proud t' be called a "small p'tater?"

"Come on Over, See My Corn Fall Off!"

"I Put 2 Drops of 'Gels-it' on Last Night—Now Watch—"

"See—all you have to do is to use your two fingers and lift the corn right off. That's the way you do it! No saws, no corn not only shrivels, but loosens from the toe, without affecting the surrounding flesh in the least. Why, it's almost a

pleasure to have corns and see how 'Gels-it' gets them off in a hurry and without the least pain. I can wear tight shoes, dance, and walk as though I never had corns."

"Gels-it" makes the use of irritating salves, banding, bandages, tape, plaster and other things not only foolish, but unnecessary. Use this wonderful discovery.

"Gels-it" for any sort of hard corn or callus. It is the new, simple, easy, quick cure, and it never fails. You'll never have to cut a corn again with knives or scissors, and run chances of blood poisoning.

"Gels-it" is sold everywhere. Get a bottle, or sent on receipt of price by J. Lawrence & Co., Chicago, Ill.

YOUNGSTERS FILLING THE MAJOR RANKS

There are few clubs right now in the two major leagues who are not flashing some youngster, his first year out in some position as a regular. The youngsters, seemingly, are taking the count collectively. There are no less than five clubs who have brand new shortstops performing regularly, and there is a horde of new regulars at the other positions.

The Reds have three new ones, all regulars. Cavo, an outfielder, and Shoen and Kopf are debutants in the championship circle of major leaguedom and they're getting away with it. Shoen is a veteran as a ball player, but he has taken a veteran's place in the major league duty, but never as a regular until he became shortstop for the Reds. Cavo is a youthful Cuban who knows how to bang the ball and play the outfield.

Ruberg is the new White Sox shortstop. Fabrique has taken over the same burden for the Dodgers. Chuck Ward is in the same fix with the Pirates and Wagnon is a sensation in the outfield for the Cubs. The Phillies and Braves have placed new comers on the bench to avoid development. Both are shortstops. Mettelings is with the Phillies and Rawlings with the Braves.

There is an imposing array of new pitchers. Nearly every club has its new sensation. Joe Oeschger is trying to make his name for the first time for the Phillies. Urban Shooker is drawing all his pay from the Yankees this year. Cadore is a bolder regular fourth man, but a whole host of others, Howard Ehnke is a Detroit regular. Christy Mathewson is showing a bevy of them how he used to look the boys.

Louis Gusto is hammering the ball and fielding like a demon for the Indians. It's his first season as an honest-to-goodness big leaguer. Vic Savarese, after his employment to a young man named Rutherford at Chicago and reports give him plenty of praise. And even with this array of minor league talent making good Jimmy Callahan is using an outfielder at first base and is combining the bushes for a man to take his place.

CARLSON CAPTAINS VARSITY TOSSERS

[SPECIAL TO THE GAZETTE.]

Madison, Wis., May 1.—George (Pete) Carlson of Waukegan, Ill., has been elected captain of the varsity of Wisconsin basketball team for next season. Carlson has been a member of the team for the past two seasons. Last winter he was rated as the best defensive man in the conference and one of the best men who has ever performed at Wisconsin.

Whether any basketball player will be held next year is still an open question. Most of the men are enlisting and will not be back until the war is over. The captain-elect is taking the course in intensive military drill and will leave for Fort Sheridan on May 5.

ALL STARS AGAIN VICTORS OVER RIVERSIDE WHITE SOX

The All Stars won the second game of the series Sunday when they defeated the White Sox by a score of 38 to 3. Four pitchers went out against the Stars but to no avail; they were knocked out in this order: Phelps, two innings; Murray, two innings; Swanson, three innings; Dawson, three innings. Murray and Clark did the catching for the Stars. Manager Marko has not yet announced who the Stars will play the coming Sunday. The lineup for the Stars was: Hager, lb.; F. Grassini, 2b.; Hager, 3b.; H. H. Fugate, ss.; C. Cokey, cf.; G. Hager, p. Captain, A. Knopp. Ask Captain Rick or Manager Marko for games.

HE IS THE LEADING HARD-LUCK TWIRLER

Leon Ames.

Leon Ames, the St. Louis veteran hurler, seems to deserve the distinction of being the leading hard-luck twirler of the game. A jinx appears to have camped on Leon's trail through most of his baseball career and though he has won many games in his day he can tell tales of hard-luck defeats that would be hard to believe if he couldn't prove them. Ames has shown great form with the Cardinals this season, but the jinx has visited him already.

Jack O'Hara, who will manage the Springfield Eastern league team this year, is going in strong for college players. Among those he has on his list are Eddie King, former Massachusetts Agricultural College captain, who had a tryout with Connie Mack and Johnny Mitchell, Boston College player, who made the training trip with the Mackmen this spring.

President Farrell of the New York State league announces his umpire staff for the season as follows: Harry Johnson, Connie Lewis and Cy Fierman. Leagues in the East: L. H. Pitcher-Turkey Roman, who is under contract to the St. Louis Cardinals, while still playing college ball in the south, pitched for the University of Alabama team the other day against the University of Louisiana team. The Louisiana boys whaled him for fourteen hits in six innings. That doesn't look like major league stuff on Turkey's part.

Robert Lee Hedges, former owner of the St. Louis Browns, has returned to the Mound City after a winter spent in Hawaii and California and rumors already connect his name with the Cardinals as a purchaser from the 700 stockholders who now own the club. Mr. Hedges, his friends say, never will be happy as long as he is out of baseball.

The engagement of Louis Pieper to manage the Hartford team in the Connecticut end of the Eastern circuit is bound to stir a lot of interest for all of Pieper's activities have been in the New England end of the league heretofore, and in that section he is regarded as about the most capable team leader the league ever has had.

Rather odd, isn't it, with several major league teams in such desperate need of first basemen, that good ones like Charley Mullen, Doc Johnson and Fred Mollwitz should be in the minors, any that Dutch Schmidt should be in a butcher shop just because his salary demands cannot be met.

The Dixie league schedule, which calls for the season to open on May 3, gives the opening dates to Dothan, Quitman and Moultrie, while Blair, Bufala and Tifton get the Fourth of July dates.

Ray Richmond, a pitcher who had a trial with the Birmingham Three-league club, has quit baseball and joined the army aviation service. He has a college education and expects to advance to a position of some importance in the army.

Catcher Nick Allen, one of the Reds taken on by the Cincinnati Reds, has been released to Providence of the International league. Wingo, Huhn and Clark will do the catching for Manager Matty, with Wingo, on his present showing, getting the bulk of the work.

The Spokane club has traded outfielder Harry Harper to the Tacoma club for Catcher Red Baldwin. Each club manager announces that he got the best of the deal.

H. B. (Happy) Harrison, formerly

a well-known minor league player, has been elected city clerk of La Porte, Texas, which goes to show he is as popular a citizen as he was a ball player.

There is only one Pitcher McCabe in the American league now. The Red Sox finger of that name has been released to New London of the Eastern league. The Red Sox also sent Catcher Wilder with Pitcher Gregg to Buffalo in payment for Bader.

Johnstown, April 30.—Miss Mary Taylor has graduated from Milton College and will teach at Hazel Green, Grant county, the coming year.

Postman Jennings, on Route 9, from Avalon, now makes his daily trips with his auto, giving the faithful horse a rest.

Mrs. Frank Godfrey attended the funeral Tuesday of a cousin at Lodi.

Mrs. William Lerch returned home Saturday, from a six months' visit with relatives at Montana, Oregon and California.

Arlie Smith will leave for Reedsburg this week, where he is employed at the institute.

Frank Rice and bride of San Diego,

California, are visiting relatives and greeting old neighbors.

Mrs. Carr Kumlton and son Elroy were recent guests at the Joseph Humes home, Milton.

The L. A. S. will hold their meeting Wednesday afternoon, May 2d, at the home of Mrs. W. Nott.

A. Wendt has resigned his position as blacksmith and left for Janesville.

THE REASON WHY

\$15

Is the Price of These Pure Wool Worsted and Serge Spring Suits

We can say the same thing about their quality and style, their reliability what we said about \$15 Suits of a year ago. This in spite of the fact that wool cost has nearly doubled. The price has not advanced here, because one outlet justified us in placing orders for fabrics to protect you and us from a rising market. See these splendid value suits at \$15.

Better Than Ever Suits at \$20

THE SAME REASON THAT CONTROLS THE PRICE OF OUR \$15.00 SUITS APPLIES WITH EQUAL FORCE AND TRUTH TO OUR SUITS AT \$20.00.

Our College Styles For Young Men's Suits and Overcoats, \$12.50, \$15, \$18, \$20, \$25

THE SERVICE SIDE OF EVERY SUIT AND OVERCOAT RECEIVES AS MUCH ATTENTION AS THE BEAUTY SIDE. SOCIETY BRAND CLOTHES ARE CONFINED TO US EXCLUSIVELY FOR THIS MARKET.

In the costly night of May 8, 1915, a regiment which has from the first had a number of Americans in its ranks occupied a long line of shallow trenches, was exposed to hours of merciless fire, and was repeatedly charged by the finest troops of the German and the Austrian Pamberton. The Pamberton died well. The battle was losing very heavily. Every officer save two or three was killed or wounded. Supplies of ammunition were almost exhausted; there was no

[SPECIAL TO THE GAZETTE.]

The city manager plan of city government will be given a hearing before the senate committee on state affairs on Wednesday. The proposition that at least one common council of a city can hire a business manager. Assemblyman R. H. Bradley favored the bill in the house, believing that the city of Superior might desire to adopt the measure. The city manager bill was offered in the house by Assemblyman Charles D. Rosa of Beloit and passed with little opposition. A similar bill came before passage in the house last week, but was defeated because of lack of time to consider the effect of its provisions. The bill does not do away with common councils, but simply limits the administration to one man, and it would not work on a good salary.

There seems to be considerable sentiment among city officials in favor of the plan.

On Thursday, May 10, there will be a joint hearing before the senate committee on state affairs and the assembly committee on excise and fees over the Evjue bill to hold saloonkeepers responsible for civil damages caused by persons committing intoxicated in his saloons and the Kurtenbacher bill, to compel state saloons wiped out of existence by a vote of the people. The Kurtenbacher bill is doing nothing to effect and would apply to the local option fights, where saloons are voted out at the present time. The Evjue bill is practically a copy of the Kurtenbacher bill. It is a fact that both bills have committees considering these bills indicates that they are seriously considered from the standpoint of possible legislation at this session.

Washington, May 14.—Major General Leonard Wood was succeeded as commander of the department of the east today by Major General Franklin Bell, who has been commander of the department of the west, with headquarters at San Francisco. Wood established a new department of the south, with headquarters at Charleston, S. C.

The transfer, which caused a storm of criticism on the part of Wood's friends, has changed that general's earlier criticism of war department methods was the reason for it, rather than a seven year old incident. In 1910 Wood succeeded Bell as commander of staff, today Bell takes the more important post and Wood commands a new and in popular opinion less important post.
